## Experience

---

### Front-End Designer/Developer

Center for Educational Networking, Lansing, MI

11/2013 – Present

- Develop highly customized themes for Drupal and Wordpress using HTML, CSS, PHP, and Javascript/jQuery
- Collaborate with back-end developers using a git version control system and remote repository
- Research, implement, and consult on best practices for web standards and accessibility
- Create various design deliverables such as infographics
- Improve Drupal functionality with custom modules as needed
- Consult on development needs during the planning phase of website projects

### Co-owner, Green Kitchenware

Brilliant Bees, LLC, East Lansing, MI

07/2012 – 12/2013

- Manage website operations and social presence
- Design and code modifications to the website design – using HTML, CSS, Illustrator, and Photoshop
- Research new products and make purchase recommendations

### Front-End Web Developer

Center for Educational Networking, Lansing, MI

07/2010 – 11/2013

- Support, build, and maintain websites for Mandated Activities Projects (MAPs)
- Develop themes for a variety of platforms, including Wordpress, Drupal, and Magento using a combination of HTML, CSS, PHP, and JavaScript (mainly jQuery)
- Research and consult on best practices for web standards and accessibility
- Develop wireframes, design mockups, and documentation as-needed for various projects
- Create user documentation for content management systems

### Lead Front-End Developer

Spartan Internet Consulting Corporation, Lansing, MI

01/2008 – 07/2010

- Converted mockups into valid, XHTML/CSS/DHTML layouts that conform to W3C standards while ensuring cross-browser compatibility
- Used the jQuery JavaScript Library as needed to implement dynamic elements
- Worked with the consulting, design, and programming teams to maintain the integrity of designs throughout the implementation process

### **Freelance Front-End Developer**

*Virtual University Design and Technology, East Lansing, MI*

**11/2007 – 01/2008**

- Translated design mockups for the MSU PPH Website into XHTML and CSS
- Integrated the design into the Expression Engine Content Management System

### **Student Developer**

*Virtual University Design and Technology, East Lansing, MI*

**08/2006 – 08/2007**

- Enhanced online course content in the ANGEL Learning Management System using HTML and CSS
- Used the Typo3 Content Management System to help maintain multiple websites

### **Teaching Assistant**

*MSU College of Communication Arts & Sciences, East Lansing, MI*

**08/2005 – 08/2007**

- Instructed digital media labs covering audio, video, web design, and lighting
- Assisted basic video production labs, providing training and technical expertise

## **Skills**

---

- Extensive knowledge of HTML and CSS, including CSS frameworks and preprocessors
- Proficient in PHP, Javascript, and Git
- Skilled with Adobe Creative Suite, especially Photoshop and Illustrator
- Ability to adapt skillset to work within a variety of content management systems, especially Drupal and Wordpress
